RESIN SYSTEMS

Thin Set Flooring Systems

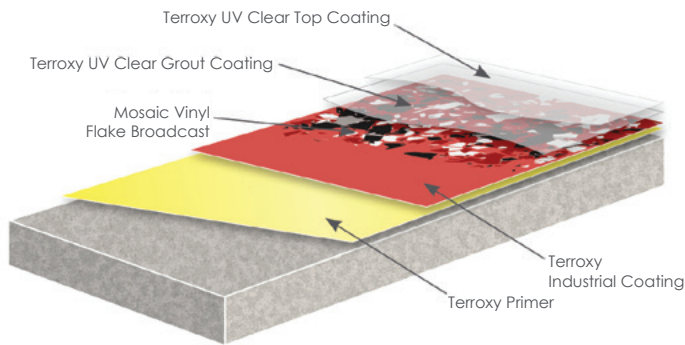

Thin Set Flooring Systems are a thin mil coating designed to provide a chemical resistant and durable high gloss finish. UV and Chemical resistant grout and top coats form a protective surfacing system which is resistant to wear. Mosaic vinyl flakes and decorative quartz can be incorporated in a clear or pigmented epoxy and sealed with a clear, high gloss, satin, matte, or orange peel finish.

Iso-Flex Flooring Systems

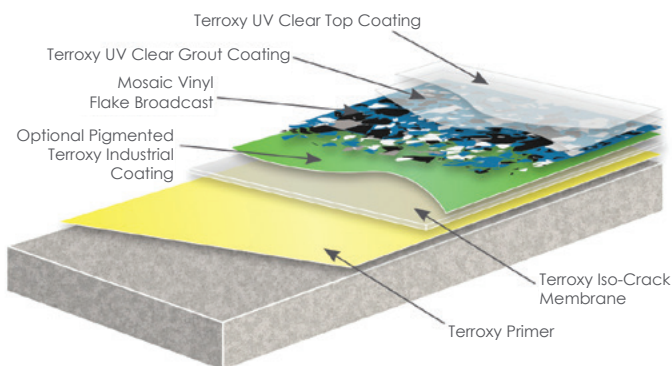

Iso-Flex Flooring System is a high build 1/16" - 1/8", chemical resistant protective system which utilizes an internally flexible resin and select aggregates to produce a resin rich material that is easily applied with a v-notched trowel or squeegee. Iso-Flex remains flexible while the UV and chemical resistant top coat provides protection that allows the Iso-Flex system to function for many years. Mosaic vinyl flakes can be incorporated in clear or gray impact resistant Terroxy Iso-Crack Membrane. Quartz Decorative aggregate provide the toughness and flexibility while maintaining beauty and durability.

Self-Leveling Slurry Flooring Systems

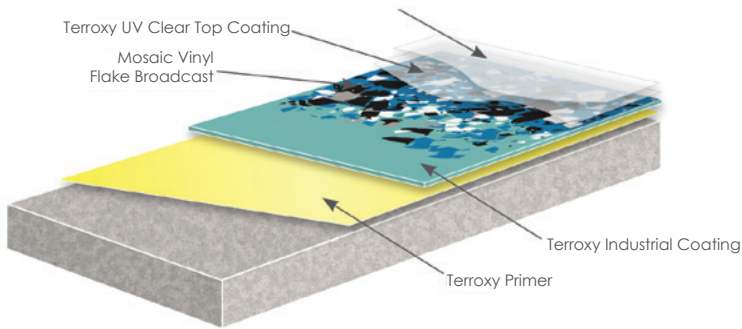

Self-Leveling Slurry systems are a high build 1/16" – 3/16" system, chemical resistant, protective, and self-leveling. Utilizing 100% solids binder resins and select aggregates to produce a resin rich material that is easily applied with a v-notched trowel or squeegee. Mosaic vinyl flakes can be incorporated in a clear or pigmented epoxy and sealed with a clear, satin, matte, or orange peel finishes. Adding Decorative quartz results in an aesthetically pleasing, skid resistant, durable flooring system.
